

Interview Skills (Primary School Admission)

ITS Education Asia offers
Interviewing Skills Programme
for students entering
K1, Reception and Years 1-3
In English and Putonghua.

Whether your child is in early years or preparing for a change of school, the right kind of support can boost initiative, learning, language skills, confidence and test results.

The journey from nursery all the way through to 'through-train' school entrance can be challenging. That's why we're here to help.

We offer tutorial support across all subjects from early years onwards. It's our belief that cultivating key skills in literacy and numeracy at an early age provides foundation for academic achievement further on in life.

Group Interview Preparation Course

— About the course —

- 8 engaging lessons with a minimum of 8 students
- 1 hour per lesson
- Mock interview
- 2 feedback reports during the course

Course Fee:
HKD 2,600

— Learning perspective —

- Students learn to conduct themselves with poise and confidence
- Students practice key-skills-based exercises including story-telling, phonics, reading & spelling, show & tell and writing
- Students learn the importance of posture, eye contact, classroom & social etiquette and positive facial expressions

"Our role is to reduce stress and anxiety – both for parents and students. We ensure that students are familiar with the test format, and the challenges they will face during a school interview or entrance test."

- Anne Murphy, Director,
ITS Education Asia

Primary Level

Whether your child is suffering from a lack of confidence, or needs overall language support and guidance for school interviews and assessments, we are here to help. Our tutors are highly experienced and adept at guiding children through their entrance examinations to the school of their choice.

What We Offer

ITS Education Asia prides itself on offering a friendly, academic and inspirational service. Whether you require support with primary school admissions, 11+, Year 7, 13 + or upper secondary school, our tutors will provide tailored support to help each student progress towards their goal.

What Makes Us Different

We are an established education consultancy company with a close-knit team of outstanding teachers and consultants, who nurture creativity and technique in order to achieve excellence.

I wanted send a note to thank you and Carina for your help this spring to prepare my son, Luca, for his reassessment at CDNIS. The one-on-one at ITS with Carina was very useful. We are thrilled that Luca was accepted to pre-reception this fall! Please pass on my gratitude to her for her help!

Shaun Bernier, May 2016

Ms Christina was extremely patient and made the tutoring fun for my daughter, which really helped her engage and definitely increased her confidence. Ava was accepted by the school of our choice for Reception at Kellett School.

Robert Thorley , August 2017

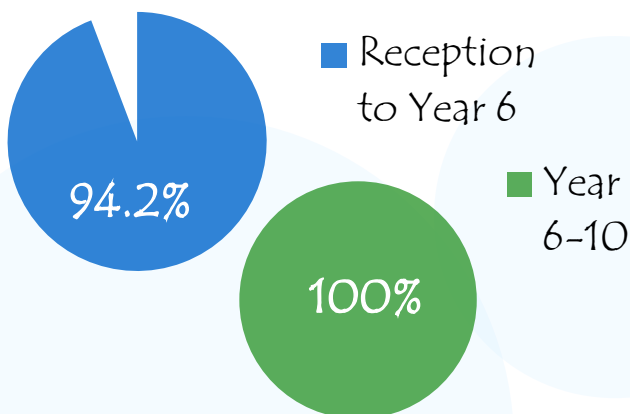

Thanks Anne and her team, we got into the school that best fits our son. Anne is very knowledgeable and professional from start to finish, she would work around the clock and go out of her way supporting her clients. While many specialists out there are only eyeing on boosting the school placement success rates, Anne focuses on helping her clients gain access to suitable schools. It was a pleasure working with Anne and her team, they have made our experience on the school admissions a rewarding one.

Karen Loong, March 2018
